MEMORANDUM FOR: NPIC

25X1

FROM:

25X1

DDA/IHSA

SUBJECT: Request for Information on NDS Developments

1. Per our phone conversation we are requesting some general information concerning NDS developments. This will be used in our strategic planning efforts to provide an understanding of the systems which will be in place during our planning period (1985-1989) and which must be "integrated" into the overall Agency architecture.

2. Attached, as an example, is a description of the CAMS-II system. As you can see it is relatively straightforward as we prefer the description of NDS to be. Attached also is a first attempt at an NDS description which is by no means sacred. Please change it as you see fit.

3. Thank you for your help and understanding.
